Kp. Walahir, RT 01/02, Ds. Karangraharja, Kec. Cikarang Utara
Kab. Bekasi - 17543

I really like to learn anything at any time. I see that as a chance to upgrade my skill and knowledge. I grew an interest in data science since 2017 and still upgrading my proficiency in that field. I like to experiment with colleagues about data and trying to find the hidden message in them.
